01 Crushing & screening OUR SPECIALTY

We supply crusher spare parts and wear parts for jaw, cone and impact crushers, and complete crushing and screening units. Parts are inspected at the manufacturer before shipment.

Family	Examples
Jaw crushers	Jaw plates, cheek plates, toggle plates, eccentric shafts, bearings
Cone crushers	Mantles, concaves (bowl liners), main shafts, eccentric bushings, socket liners
Impact crushers	Blow bars, impact plates, rotors
Screening	Screen meshes, perforated plates, polyurethane panels
Feeders & conveyors	Vibrating feeders, belts, idlers, pulleys
Complete units	Crushers, screens, feeders and conveyors — new

Crusher parts inspected before shipment

> Prices in EUR · CFR / CIF West African ports, other Incoterms on request

02 Equipment & vehicles

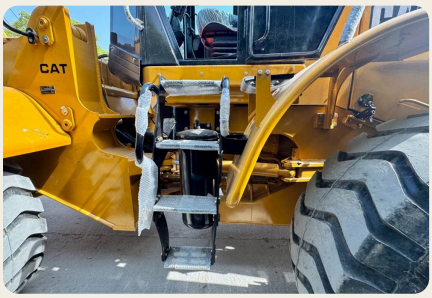

We assess each requirement against its use, destination and operating conditions, then request suitable supplier options.

Family	Examples
Earthmoving & loading	Excavators, loaders, buckets and attachments
Site haulage	Dump trucks and site support equipment
Road transport	Trucks, buses, trailers, lowbeds and tanker trucks
Extraction & demolition	Drilling tools, hydraulic breakers, recycling grabs
Handling & ports	Forklifts, terminal tractors, gantry cranes and components

Specify capacity, configuration, condition, site constraints and the required delivery date.

03 Parts & industrial supplies

Family	Examples
Wear parts	Crusher wear parts, liners, bucket teeth, wear plates
Transmission	Bearings, gearboxes, couplings, sprockets and chains
Hydraulics & pumping	Pumps, cylinders, hoses and related components
Power & maintenance	Engines, filters, seals and consumables
Conveying	Belts, chain conveyors and wheels
Tyres & attachments	OTR and truck tyres, buckets, breakers and accessories

Caterpillar equipment

Lowbed trailer

Tyres loaded in a container

04 Electrical & utility equipment

Family	Examples
Automation	Controls, industrial automation, variable speed drives
Electrical supplies	Components, cables, batteries and replacement parts
Power generation	Generator sets and associated equipment
Compressed air	Compressors, dryers, filters, receivers, maintenance parts
Fluids	Valves, volumetric meters and pumps
Maintenance	Industrial tools and operating consumables

Selection starts with the specification

- Voltage, frequency, phases and rated power
- Required capacity, flow, pressure or operating duty
- Installation dimensions, environment and connections
- Required certificates, manuals and warranty scope

05 Building materials

For housing, commercial buildings and site facilities, from a single order to full project supply.

Family	Examples
Structure	Cement, steel rebar, wire mesh, structural steel
Roofing	Roofing sheets, insulation, gutters
Finishes	Floor and wall tiles, paint, doors and windows
Plumbing & sanitary	Pipes, fittings, water tanks, sanitary ware
Electrical installation	Cables, switches, sockets, lighting
Hardware & tools	Fixings, hand and power tools

06 Other sourcing requests

The sectors above are examples, not limits. If you need it, we source it.

Family	Examples
Construction & infrastructure	Equipment and supplies for earthworks, roads and related projects
Rugged telecoms	Rugged phones and connectivity equipment for remote sites
Agricultural trade	Sourcing and export coordination for agricultural product containers
Project coordination	Requirement clarification, supplier interface, purchasing and logistics milestones
Anything else	Send the details and we assess the scope within 72 hours

Help us identify the right item

- Manufacturer, machine model and serial number
- Part number and quantity
- Photos of the nameplate or the part, dimensions, drawings
- Delivery destination and required date

Request a quotation

Send a description, part number, nameplate photo or bill of materials. Firm quote within 72 hours, OEM and aftermarket options.
